

# True Flex Gel Elbow Pads

Model #: TSE-TFLX

True Flex Elbow Pads are used and demanded by True Professionals worldwide working some of the most extreme work environments.

**Multiple Hook and Loop Straps**  
Allows infinite adjustability

**Full Protection Flanges**  
Above and below the elbow  
for complete protection

**Breathable Air Vents**  
Vents allow complete  
air flow for long wear

## TRUE COMFORT - TRUE PROTECTION

Fits most any size due to the flexible nature of the elbow pad and near infinite adjustability of the *Dual Nylon Elastic Straps* and *Ultra Tough Hooks*

### Full Natural Rotation

True Flex Elbow Pads are designed to be uniquely jointed with multiple hook and loop straps. This allows the elbow to flex naturally and keep your full natural rotation.

### Maximum Protection

True Flex Knee Pads provide maximum protection well above and below the elbow with incredible durability.

### True Comfort

**Premium Gel Pad** insert provides gel comfort and protection for long wear comfort.

**Dual Density Foam** provides soft cushy foam above and below the user's elbow for great comfort, firmer foam against the outer shell has excellent memory and does not break down.
